

## Front-End Developer at F&P Robotics AG

Are you interested to work in a young, innovative, and dynamic robotics company? Do you want to work with a team of international talents as well as professionals with entrepreneurial experience? Then this might be your perfect opportunity.

F&P Robotics AG is a pioneer in the field of human-robot interaction. We develop and build personally interacting, collaborative robots for hospitality and care applications. F&P Robotics AG offers complete robotic solutions, having established expertise in both robot arm and effector technologies, as well as in the software development.

All robots of F&P Robotics AG come with the integrated robot control and GUI software package myP®. This software is designed in a flexible way, especially on the front-end side where the robot's environment and purpose dictate the set of features and user interface components that are needed. To strengthen our team, we are looking for a full-time employee in the field of front-end development and GUI design.

### Tasks:

- Manage, improve, and maintain our existing graphical myP®-Interfaces (based on Angular 6)
- Improve the GUI code with respect to various topics (testing, optimization, usability, design)
- Realization and implementation of new graphical interfaces for future products of F&P
- Supporting our competence centers (hospitality & care robotics) with new innovative ideas and concepts

### Required Knowledge, Skills, and Abilities:

- Practical experience in programming of web applications are needed:
  - Angular, TypeScript, HTML, JS, CSS
- Ideally you have additional experiences and interest in:
  - real-time applications using web sockets
  - test automation
  - graphical design (icons, animations, vector graphics, ...)

### You are ...

- friendly and love to exchange innovative ideas with other developers?
- goal-oriented and solve your tasks in a structured and independent way?
- user-oriented and find the right solution for every user?

**Workload:** 80-100%

**Start:** Immediately or according to agreement

**Office:** F&P Robotics AG, Rohrstrasse 36, 8152 Glattbrugg ZH, Switzerland

We are looking forward to receiving your application (in English or in German) by email:
